No. 5,932,863, which is a division of application serial number 08/250,799, filed May 25, 1994, now abandoned.

IN THE CLAIMS

Please amend claims 168, 185, and 187 as follows:

{CLEAN VERSION OF THE AMENDED CLAIMS}

---

*168*  
168. A system for displaying programming material to a user,

PATENT

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

the system comprising:

a printed real estate listing having at least one machine recognizable feature;

a feature recognition unit having associated therewith a means for recognizing said machine recognizable feature and a means for transmitting a coded signal in response to the recognition of said machine recognizable feature;

B2  
an intelligent controller having associated therewith a means for accessing said programming material in response to, receiving said coded signal; and

and  
a display unit for presenting said programming material.

---

B3  
185. A system as defined in claim 181 wherein said "information superhighway" data link comprises an integrated service digital network (ISDN).

---

B4  
187. A system as defined in claim 181 wherein said "information superhighway" data link comprises a cable television (CATV) line.

---
